- For outstanding individual or group contributions, achievements, and advancements in the worldwide accelerator Low Level RF com
- Some guidelines
 - Work done in the last 4 years
 - No SPC member or affiliate of the sponsors are eligible
- Will post all guidelines on the LLRF.NET website
- Nomination process will begin upon announcement
 - justification statement
 - support letters
 - Supporting documentation and references
 - Nominations well in advance of LLRF21

The LLRF IQ Award - Criteria

Scoring criteria

- Significance and impact to the nominee's organization
- Significance and impact to the greater accelerator LLRF community
- Complexity, level of difficulty, resource or time constraints.
- Maturity of the work, with greater maturity afforded more weight
- Uniqueness, degree of innovation
- Level of experience of the nominee or group, i.e. early career candidates will receive extra weight in the evaluation process

Continuing the Topical Workshop Series

Elettra Sincrotrone Trieste

- Precision timing and reference distribution systems
- Hosted by Sincrotrone Trieste
- Sometime in late summer early fall 2020

Many Thanks
